

**Motion to the  
Penylan Bowls and Bridge Club AGM  
February 2025**

**Motion to prioritise the refurbishment of the Downstairs Ladies' toilets of the Club premises.**

**Proposed by: Helen Houston**

**Seconded by: Ann Hirst**

They are dingy, the building fabric is old, making them almost impossible to clean. The seats do not properly fit the toilets, and the flush systems are ineffective - one toilet most of the time. At a recent women's bridge weekend, they smelled of faeces most of the time.

The club charges for the use of the room and toilets. They really aren't fit for members or paying guests.

The Club is urged to put their upgrading at the top of the list of maintenance works, so when finances allow any improvements, they can be undertaken.
