VOLUNTEERS WANTED

New software (called Club Tickets) has been developed to facilitate the booking and payment of your regular club bridge sessions.

We would like volunteers to try to use the software during August to book all their club sessions.

We hope that the process is fairly simple.

Using your home PC, laptop, tablet or smart phone ...

1. Use the link https://www.msg.uk.com/clubtickets

2. Using your WBU number you create a new club tickets account - you only need to do this once

3. You login using your WBU number, surname and the password you set when creating your Club Tickets account

4. You make a £20 payment top-up - test credit card details are provided - So you don't really pay!

5. You book your bridge session tickets

6. You can log in anytime to check the sessions you have booked or to cancel sessions.

7. As this system is on-test and not using real credit card details you will still have to pay for your bridge sessions at the club as usual.

If you encounter any problems when using the new software please email:
