Other agreements in leading, e.g. high level contracts, partnership suits:-

the opening lead of a King asks for a count signal.

CARDING METHODS					
	Primary method vs suit and NT contracts				
On Partner's lead	low/high = encouraging/discouraging (suit preference)				
On Declarer's lead	high/low = even count/odd count				
When discarding	suit preference: high/low = higher/lower ranking side				
villeri discarding	suit				

Other carding agreements, including secondary methods and exceptions to above:

<u>Suit preference signals on partner's lead:</u> when suggesting a switch, a high card requests the higher-ranking side suit, a low card requests the lower ranking side suit.

<u>Trump signals:</u> playing HI-LO in trumps indicates three trumps and ruffing potential.
